

“Advanced course in mass spectrometry”

## CURRICULUM VITAE

*Prof. Dr. Hab. Piotr Tadeusz Stefanowicz*

### 1 Short CV

**Address:** Faculty of Chemistry, University of Wrocław , Joliot-Curie 14 str. 50-383 Wrocław

**Citizenship:** Polish. **Occupation or position held:** Full Professor

#### Education:

Professor title		04/2019
Dr. hab. (organic chemistry)	University of Wrocław, Faculty of Chemistry	04/2010
Dr. (organic chemistry)	University of Wrocław, Faculty of Chemistry	05/1993
mgr. (chemistry)	University of Wrocław, Faculty of Chemistry	06/1984

#### Professional experience

<b>2019-now</b>	University of Wrocław, Faculty of Chemistry
Position	Full professor, Head of Peptide engineering group, Head of the Doctoral College in Chemistry of the Doctoral School
Research work	Investigations of biopolymers by mass spectrometry, developing new methods of peptide synthesis
<b>2015-2019</b>	University of Wrocław, Faculty of Chemistry
Position	Associate professor
Research work	Investigations of biopolymers by mass spectrometry, developing methods of biomarkers and bioeffectors analysis, designing self-organizing peptides
<b>2001-2015</b>	University of Wrocław, Faculty of Chemistry

PhD in Chemical Sciences  
*Department of Chemistry "Ugo Schiff"*  
*University of Florence*

Position	Assistant professor
Research work	Mass spectrometry of peptides, solid phase synthesis, designing of immunosuppresses
<b>1998-2001</b>	Montreal, Biotechnology Research Institute, National Research Council
Position	Associate Research Officer
Research	Combinatorial synthesis, mass spectrometry of natural products
<b>1994-1998</b>	University of Wrocław, Faculty of Chemistry.
Position	Assistant professor
Research	peptides spectropolarimetry, solid phase synthesis
<b>1986-1993</b>	University of Wrocław, Faculty of Chemistry
Position	Assistant
Research	peptide spectrofluorimetry, kinetic investigation of acyl transfer

#### **Topics:**

1. Mass spectrometry
2. Peptide synthesis
3. Natural products chemistry

#### **Fellowships**

Biotechnology Research Institute, National Research Council (Montreal, Canada), Dr Y. Konishi, Associate Research Officer, 1998-2001

University of Southern Denmark, (Odense, Denmark) 2012, Short term scientific mission (COST)

#### **Scientific activity details**

- the co-author of over 130 publications
- seven PhD students promoted
- V conference of Polish Mass Spectrometry Society (Sobótka 26-29.IX.2016), Chairman
- IV conference of Polish Mass Spectrometry Society (Trzebnica 25-29 V2014), Chairman
- Co-organizer of Joint Conference of Polish Mass Spectrometry Society and German Mass Spectrometry Society, Poznań 2012
- Co-organizer 18 Polish Peptide Symposium (Vice-chairman)

- Chairman of Polish society for Mass Spectrometry (2010-2018)
- reviewer of over 80 manuscripts for international scientific journals
- reviewer of scientific projects: National Science Center in Poland, Ministry of Science and Higher Education in Poland
- expert of Synthesis and Materials Panels in the National Science Center, Poland

#### **Current and completed research projects**

1. Principal investigator in project UMO-2015/19/B/ST5/00659 „Study on cyclic peptides conversion caused by the transfer of acyl group from nitrogen atom onto sulfur atom” (NCN-Opus, ST-5)
2. Principal investigator project „Studies on substrate specificity and potential synthetic applications of a new enzyme omniligase” (KNOW, Faculty of Chemistry, University of Wrocław)
3. Principal investigator in completed project 2012/07/B/ST5/00821 „The search for catalytic systems created by metallacrown formation controlled self-assembly of polypeptides into tetra helical boundless” (NCN, Opus ST-5)
4. Principal investigator in completed project 3T09A 029 28 „The development of a new method of peptides glycation on solid support” (KBN)
5. Co- investigator in project „ The synthesis and fragmentation analysis of peptide-betaine conjugates. Search for new isobaric labels for quantitative self- organization proteomics. (principal investigator prof. Zbigniew Szewczuk, NCN-Opus)
6. Co- investigator in project „ Biotechnological and pharmacological potential of bee products microbiota. (principal investigator dr hab. inż. Piotr Szweda, NCN-Opus)
7. The supervisor of project „Application of N-(2-thioethyl)glycine analogues in orthogonal cleavage of peptides from solid support” (NCN-Preludium; principal investigator mgr Magdalena Wierzbicka)
8. The supervisor of project „Synthetic self-assembled models of transmembrane proteins” (NCN-Preludium; principal investigator mgr Grzegorz Wołczański )
9. The supervisor of project: „The application of macrocycles formed by substituted

- thiocyanuric acid as templates for of peptide chains" (NCN-Preludium; principal investigator Marta Cal)
10. The supervisor of project: „A development of a method of micro-scale synthesis of peptides labelled with stable isotopes for quantitative proteomics" (NCN-Preludium; principal investigator Maciej Modzel).
  11. Co-investigator in completed project 6P05A 013 21 „ Further studies on structurally-chemical determinants of immunomodulatory activity of HLA family proteins and ubiquitin" (2001-2003, KBN principal investigator prof. Zbigniew Szewczuk).
  12. Co-investigator in completed project 3T09A 036 18 „Search for the new peptides in flax" (KBN, principal investigator dr. Bolesław Picur)
  13. Co-investigator in completed project 4P0502314 „Studies on thymopenthin-like fragments of major histocompatibility complex and ubiquitin „ (1998-2000 KBN, principal investigator prof. Zbigniew Szewczuk).
  14. Co-investigator in completed project 6P20714706 „Immunomodulatory and adhesive region of HLA-DQ protein" (1993-1996 KBN, principal investigator prof. Zbigniew Szewczuk).
